

Junior Healthcare Data scientist | analyst

✉ imaneelmissaoui23@gmail.com
☎ (+33) 6 98 75 95 9

🏠 Paris, France

🔗 <https://imaneelmissaoui.github.io>

Creative, passionate, and highly motivated data scientist with a strong foundation in computer science, mathematics, and physics. Above all, a curious mind and a dedicated learner with excellent analytical and problem-solving skills. I am eager to contribute to innovative projects and build data-driven solutions that improve healthcare outcomes.

Education

- **MASTER'S IN HEALTH DATA SCIENCE**
2022 - 2024 [University of Engineering and Management](#) Lille, France
- **BACHELOR'S DEGREE IN PHYSICS AND CHEMISTRY**
2020 - 2022 [University of Grenoble Alpes](#) Grenoble, France
- **UNDERGRADUATE STUDIES INTENSIVE TWO YEARS IN MATHS PHYSICS, EXCELLENCE SCHOLARSHIP**
2017 - 2019 [Benguerir High School of Excellence](#) Morocco

Work experience

- **DATA SCIENTIST | HEALTH ENGINEER**
12-2023 - 09-2024
[Computer Science Laboratory of the Sorbonne University](#) Paris, France
[Endoscopic capsule project: MongoDB-Git-Python-Pytorch-Linux](#)
 - Design of new protocols for the collection of medical data.
 - Design and implementation of a hybrid classification model
 - State of the art review, and collection of relevant data for the classification model.
 - Data management and handling of missing data.
 - Exploratory data analysis and feature generation
 - Cloud and Gitlab management
 - Management of GPU/CPU clusters.
 - Design and functional administration of a NoSQL database (MongoDB) to manage clinical trial metadata, guaranteeing data integrity and traceability.
 - Definition and formalization of data formats and quality objectives to align with the needs of research teams.
 - Writing of technical documentation.
[Real time patient monitoring: SQL-Git-Python-Realtime dataanalysis-Streamlit-Airflow-Linux](#)
 - Creation of a multimodal SQL database to host data collected by a medical device.
 - Data analysis and integration of a health algorithm with HeartPy.
 - Implementation of a real-time dashboard.
 - Writing of technical documentation.
 - Development and implementation of KPIs (heart rate, respiratory rate, etc.) to monitor the patient's condition.
 - Design of a real-time automation pipeline on Airflow.
 - Presentation of results.
- **DATA SCIENTIST | HEALTH ENGINEER**
03-2023 - 08-2023
[Lille Center for Neuroscience and Cognition](#) Lille, France
[Python-Dipy-Jupyter notebooks-Shell scripting-Datavisualization](#)
 - Cohort data collection and in-depth MRI analysis.
 - Development of a predictive model for patient stratification in Python, integrating machine learning and topological analysis of longitudinal data.
 - Automation of data preprocessing and postprocessing tasks
 - Optimization using linear programming (LP).
 - Presentation of analysis results.

Computer skills

- Programming Languages:** Python, R
- Databases** SQL (PostgreSQL, MySQL), NoSQL(MongoDB, Neo4J)
- Frameworks & Libraries:** Git, AWS, Hugging Face, Scikit-learn, Pytorch, Tensorflow, Pandas, Numpy, Seaborn, matplotlib, Jupyter, Excel, Unix, Windows
- Data Engineering:** ETL/ELT, Spark, Talend, CI/CD pipelines
- Visualization Tools:** Power BI, Streamlit, Shiny, Plotly
- Key Skills:**
 - Mathematics and statistics
 - Machine Learning and Deep Learning (time series, Bayesian learning, forecasting, supervised and unsupervised learning (regressions, clustering, neural networks), LLMs
 - API Integration
 - Databases design and management
 - Reporting and Dashboards
 - Validation and Deployment of ML and AI based Solutions
 - Monitoring and Documentation of Data Pipelines.
 - Presentation of Analyses to Non-technical Stakeholders

Languages

- English** C2
- French** C2

Assets

- Ability to work in a multilingual environment for international projects.**
- Good knowledge of data regulations GDPR, CNIL, AI Act**
- Autonomy, proactiveness, analytical mindset, communication and teamwork.**

Additional education

- **Python for Data Science and Machine Learning Essential Training**
12-2024 [LinkedinLearning](#) online
- **Data scientist Associate**
01-2024 - 05-2024 [Data Camp](#) online

Social networks
